

## Writing Assignment 3 for Geology 107

This essay will be written in 3 parts:

You will turn in part 1 and receive comments. Then after a few more labs you will turn in part 1 plus part 2. We expect that you will have addressed these comments in addition to adding in the new information.

Finally, you will receive comments and feedback on parts 1 and 2. Finally, you will add in part 3. This will be the final version of your paper. The final paper will be about 5-8 paragraphs in length.

### **Part III: Nazca/ S America**

#### **Significant Geologic Event**

Pick an event. Connect your plate tectonic setting into the real world. Some examples can be an expedition, a natural disaster (earthquake, volcanic eruption), mine collapse, landslide, avalanche, etc. This should relate your plate tectonic setting to how geology is voiced in the news today. Make sure to cite the webpage/news article/resource you use for this portion of your essay. This should be 1-2 paragraphs in length. **20 points**
